jorgejs1911@gmail.com | +34 744 45 13 77 | Bormujos, Sevilla

PERFIL PROFESIONAL

Junior Software Engineer with a strong foundation in full-stack development and low-level programming. Passionate about building scalable applications using Java, JavaScript, and C. Proven ability to deploy production-ready solutions using Docker and SQL, with a focus on integrating AI technologies to enhance user experience.

EXPERIENCIA LABORAL

Full-Stack Developer (Freelance / Personal Projects)

Independent Projects | 2023 - Present

- Developed and deployed 'El Grano de Oro', a full-stack e-commerce platform using AI integration, resulting in a 100% automated customer support system via virtual assistants.
- Engineered a desktop music management application in Java, implementing automated synchronization protocols that reduced manual file organization time by 90% for end-users.
- Designed and maintained corporate web solutions using JavaScript and SQL, ensuring 99.9% uptime and optimized performance for client business portfolios.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor's Degree in Industrial Technology Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Languages:
