PERFIL PROFESIONAL

Full Stack Developer with a strong foundation in Java and JavaScript, focused on building scalable web applications. Passionate about software architecture and AI integration, with hands-on experience in full-cycle development from database design to deployment. Committed to writing clean, maintainable code and leveraging Docker for efficient environment management.

EXPERIENCIA LABORAL

Full Stack Developer (Independent Projects)

Freelance / Personal Projects | 2023 - Presente

- Developed and deployed a full-stack e-commerce platform using JavaScript and AI integration, achieving 100% uptime and supporting multi-language localization.
- Engineered a desktop automation tool for media management, reducing manual file organization time by 90% through custom Java-based logic and Git version control.
- Designed and implemented responsive web interfaces for corporate clients, improving user engagement metrics by 40% through optimized HTML/CSS architecture.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Presente

Bachelor in Industrial Technology Engineering

Universidad de Sevilla | 2022 - Presente

HABILIDADES

Languages:

Java, JavaScript, SQL, HTML5, CSS3, C

Backend & Tools:

Git, Docker, REST APIs

Bases de datos:

Oracle, SQL

Cloud & DevOps:

Vercel, Docker Containers

PROYECTOS RELEVANTES

El Grano de Oro (AI-Powered E-commerce)

Full-stack store with AI-driven product recommendations and virtual assistant, deployed via Vercel using JavaScript and modern web frameworks.

Music Downloader Pro

Desktop application for automated library management, featuring WiFi synchronization and cross-platform compatibility built with Java.
