PERFIL PROFESIONAL

Software Engineer with a focus on AI-driven applications and full-stack development. Passionate about building user-centric products with 2+ years of experience in integrating LLMs, developing scalable web architectures, and automating workflows. Proficient in TypeScript, Python, and Java, with a proven track record of deploying production-ready software.

EXPERIENCIA LABORAL

Full Stack Developer & AI Integrator (Freelance)

Independent Projects | 2022 - Present

- Developed and deployed an AI-powered e-commerce platform using Gemini API, resulting in a 30% increase in user engagement through personalized product recommendations.
- Engineered a custom desktop automation tool for media management, reducing manual file organization time by 90% for end-users.
- Architected responsive web applications for local businesses, achieving 100% uptime and improving client digital presence through optimized SEO and performance.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

Elements of AI Certification

University of Helsinki | 2024

HABILIDADES
