## PERFIL PROFESIONAL

Full Stack Software Engineer with a focus on D2C solutions and TypeScript development. Passionate about building scalable, user-centric applications with a proven track record of deploying production-ready software. Highly productive, self-driven, and aligned with B Corp values, capable of delivering high-quality code in fast-paced, agile environments.

## EXPERIENCIA LABORAL

### Full Stack Developer (Freelance / Personal Projects)

*Independent Projects | 2022 - Presente*

- Architected and deployed a D2C e-commerce platform using TypeScript, reducing manual administrative tasks by 60% through automated email notifications and AI-driven product recommendations.
- Engineered a high-performance desktop application for media management, optimizing data synchronization processes and improving user workflow efficiency by 40%.
- Integrated LLM APIs (Gemini) into production environments to provide real-time customer support, handling 100% of initial user inquiries autonomously.

## FORMACIÓN

### Higher Technician in Multiplatform Application Development (DAM)

IES El Majuelo | 2025 - Present

### Bachelor in Industrial Technology Engineering

Universidad de Sevilla | 2022 - Present

## HABILIDADES

### Frontend & Backend:

TypeScript, JavaScript, HTML5, CSS3, Node.js

### Bases de datos:

SQL, Oracle

### Cloud & DevOps:

Docker, Git, Vercel

### Languages:

English (C1 - Cambridge Certified), Spanish (Native), French (B1)

## PROYECTOS RELEVANTES

### El Grano de Oro (D2C E-commerce)

Full-stack e-commerce platform with AI-powered recommendations and multi-language support, deployed and serving real users.

### Music Downloader Pro

Desktop application built for automated music library management with cross-device synchronization via QR code.
