jorgejs1911@gmail.com | +34 744 45 13 77 | Bormujos, Sevilla

PERFIL PROFESIONAL

Junior Technical Project Specialist with a strong background in full-stack development and AI integration. Proficient in bridging technical requirements with design workflows using Figma and Adobe tools. Committed to streamlining operational efficiency through automation and cross-functional collaboration in SaaS environments.

EXPERIENCIA LABORAL

Freelance Software Developer & Technical Consultant

Self-Employed | 2022 - Present

- Designed and prototyped 3+ commercial web interfaces using Figma, reducing development handover time by 30% through clear technical documentation.
- Integrated AI-driven chatbots (Gemini API) into client SaaS platforms, increasing user engagement by 25% and automating 40% of customer support inquiries.
- Managed end-to-end project lifecycles for 3+ web applications, coordinating requirements between non-technical stakeholders and technical implementation teams.
- Streamlined operational workflows by implementing AI-assisted documentation tools, reducing manual reporting time by 15 hours per month.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Design & Prototyping:

Figma, Adobe Creative Suite

Web Technologies:

HTML5, CSS3, JavaScript

AI & Automation:

Gemini API, AI-assisted workflows, Prompt Engineering

Project Management:

MS Office, Technical Requirements Documentation, Cross-functional Coordination

Languages:

Spanish (Native), English (C1 - Cambridge), Russian (Conversational), French (B1)

PROYECTOS RELEVANTES

El Grano de Oro (SaaS E-commerce)

Full-stack e-commerce platform with AI-powered recommendations and virtual assistant; designed UI/UX in Figma and integrated automated email notifications.

Music Downloader Pro

Desktop application for automated library management; utilized advanced logic to sync data across devices, improving user workflow efficiency.
