Deutsche Telekom

Junior Android Softwareentwickler mit Englisch (m/w/d)

Building robust software solutions is my passion, and I am eager to bring my technical background in Java and my proactive approach to the Android development team at Deutsche Telekom. My experience in full-stack development, combined with a strong foundation in Java, has allowed me to build and deploy functional applications that solve real-world problems, such as my music management tool and AI-integrated web platforms. I am particularly drawn to this role because it aligns perfectly with my goal of creating high-quality mobile experiences. My ability to learn complex systems quickly, paired with my C1 English proficiency, ensures that I can contribute effectively to your international team from day one. I am confident that my technical versatility and dedication to clean, efficient code will make me a valuable asset to your Android development projects. I would welcome the opportunity to discuss how my skills and my drive for continuous improvement can support the innovative work being done at Deutsche Telekom. Please let me know when you might be available for a brief conversation regarding this position.

Atentamente,

Jorge Jaime Sena
