PERFIL PROFESIONAL

Frontend Software Engineer with a strong focus on component-based architecture and modern web development. Proficient in TypeScript, SvelteKit, and Tailwind CSS, with a proven track record of building scalable, user-centric applications. Passionate about bridging the gap between design systems in Figma and high-quality, maintainable code.

EXPERIENCIA LABORAL

Full-Stack Developer (Freelance)

Self-Employed | 2022 - Present

- Developed and deployed 3+ production-ready web applications using modern frameworks, achieving a 99.9% uptime and serving active user bases.
- Integrated AI-driven features (Gemini API) into customer-facing platforms, increasing user engagement by 25% through personalized recommendations.
- Optimized development workflows by implementing automated CI/CD pipelines, reducing deployment times from manual processes to under 5 minutes.
- Collaborated with clients to translate Figma design systems into pixel-perfect, responsive interfaces using component-based architecture.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Frontend:
