PERFIL PROFESIONAL

Software Engineer and QA enthusiast with a strong focus on test automation and AI-driven development. Experienced in building full-stack applications and integrating LLMs into workflows. Proficient in TypeScript, Playwright, and SQL, with a proven ability to automate manual processes and optimize data validation workflows for complex spatial platforms.

EXPERIENCIA LABORAL

Software Developer & QA Automation Specialist (Freelance)

Independent Projects | 2023 - Present

- Transitioned manual testing workflows to automated suites using Playwright and TypeScript, reducing regression testing time by 60%.
- Integrated AI coding assistants (Cursor/Copilot) to generate self-healing test selectors, increasing test stability by 45% in dynamic UI environments.
- Developed complex SQL queries for data validation and spatial analysis, ensuring 99.9% data integrity across custom web applications.
- Automated CI/CD pipelines using GitHub Actions, reducing deployment cycles from 2 hours to 15 minutes.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Testing & Automation:

Playwright, Cypress, GitHub Actions, Test Automation

Languages:

TypeScript, JavaScript, SQL, Java, C

Data & Analytics:

BigQuery, Snowflake, Databricks, Spatial SQL

AI & Tools:

AI Coding Assistants, Docker, Git, LLM Integration

PROYECTOS RELEVANTES

El Grano de Oro (AI-Powered E-commerce)

Full-stack store with integrated AI virtual assistant and automated recommendation engine, deployed on Vercel.

Music Downloader Pro

Desktop automation tool for library management, featuring WiFi-based mobile synchronization and automated file processing.
