PERFIL PROFESIONAL

Fullstack Software Engineer with a strong focus on building scalable web applications and AI-integrated systems. Proficient in React, Python, and Java with a proven track record of deploying production-ready software. Passionate about writing clean, well-tested code and collaborating in cross-functional environments to deliver high-impact financial technology solutions.

EXPERIENCIA LABORAL

Fullstack Software Developer (Freelance/Independent)

Self-Employed | 2023 - Present

- Architected and deployed a full-stack e-commerce platform using React and AI-driven recommendation engines, resulting in a 100% automated customer support workflow via integrated LLMs.
- Developed a high-performance desktop utility for data synchronization, optimizing local resource management and reducing manual file processing time by 80%.
- Collaborated with stakeholders to define requirements for corporate web solutions, ensuring 99.9% uptime and responsive design across all devices.
- Implemented rigorous debugging and unit testing protocols, ensuring extensible codebases and reducing post-deployment bug reports by 40%.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor's Degree in Industrial Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Frontend:

React, HTML5, CSS3, JavaScript

Backend:

Python, Java, Kotlin

Bases de datos:

SQL, Oracle

Tools & Cloud:

Docker, Git, GitHub Actions, AWS

PROYECTOS RELEVANTES

El Grano de Oro (AI-Powered E-commerce)

Fullstack platform featuring an AI virtual assistant and personalized recommendation engine built with React and modern backend services.

Music Downloader Pro

Desktop application for automated library management, utilizing Python for backend logic and cross-device synchronization via QR protocols.
