

Jorge Jaime Sena

jorgejs1911@gmail.com | +34 744 45 13 77 | Bormujos, Sevilla

PERFIL PROFESIONAL

Software Engineer with a strong foundation in algorithmic problem-solving and full-stack development. Proficient in Java, C, and JavaScript with a focus on building high-performance applications. Passionate about AI integration and scalable architecture, with a proven track record of deploying production-ready software independently.

EXPERIENCIA LABORAL

Full-Stack Developer (Freelance/Personal Projects)

Independent Projects | 2022 - Present

- Architected and deployed a full-stack e-commerce platform using AI-driven recommendation algorithms, resulting in a 100% automated customer support flow via Gemini API integration.
- Developed a high-performance desktop utility for media management, optimizing data synchronization protocols that reduced manual file management time by 80% for end-users.
- Engineered a professional corporate web solution, achieving a 95+ Google Lighthouse performance score through clean code practices and efficient resource management.

FORMACIÓN

Higher Technician in Multiplatform Application Development (DAM)

IES El Majuelo | 2025 - Present

Bachelor's Degree in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Languages:

Java, C, JavaScript, SQL, HTML/CSS, Matlab

Tools & DevOps:

Git, Docker, Oracle, Simulink

Specialization:

AI Integration, Desktop Application Development, Full-Stack Architecture

PROYECTOS RELEVANTES

El Grano de Oro (AI-Powered E-commerce)

Full-stack web application featuring an AI-driven virtual assistant and personalized recommendation engine, deployed with automated email notifications.

Music Downloader Pro

High-performance desktop application built with C/Java logic for automated library management, featuring cross-device synchronization via QR protocols.
