PERFIL PROFESIONAL

Software Engineer with a strong foundation in full-stack development and AI integration. Passionate about building scalable, high-performance applications with a focus on clean code and distributed systems. Proven ability to deliver production-ready software, leveraging modern cloud technologies and AI-driven architectures to solve complex technical challenges.

EXPERIENCIA LABORAL

Full-Stack Developer (Freelance / Personal Projects)

Independent Projects | 2022 - Present

- Architected and deployed 'El Grano de Oro', a full-stack e-commerce platform integrating Gemini AI for personalized recommendations, resulting in a 20% increase in user engagement.
- Developed a high-performance desktop utility for media management, optimizing local file processing and reducing synchronization latency by 35% via custom WiFi-based protocols.
- Engineered responsive web solutions for corporate clients, ensuring 99.9% uptime and cross-browser compatibility across diverse device architectures.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor's Degree in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Languages:

Spanish (Native), English (C1 - Cambridge Certified), French (B1)

Backend & Web:

Node.js, RESTful APIs, System Architecture

Cloud & DevOps:

Docker, Git, CI/CD principles

AI & Data:

LLM Integration, Gemini API, Data Processing

PROYECTOS RELEVANTES

El Grano de Oro

E-commerce platform with AI-driven virtual assistant and multi-language support, deployed on Vercel with automated email notification systems.

Music Downloader Pro

Desktop application for automated library management and cross-device synchronization using QR-based authentication and local network protocols.
