## PERFIL PROFESIONAL

Aspiring Junior Software Engineer with a strong foundation in Java and full-stack development. Passionate about building scalable applications with a focus on clean code and automated deployment. Proficient in Java, JavaScript, and SQL, with hands-on experience in containerization and version control, seeking to contribute to enterprise-level software solutions at Scotiabank.

## EXPERIENCIA LABORAL

### Full-Stack Developer (Freelance/Personal Projects)

*Independent Projects | 2023 - Present*

- Developed and deployed a full-stack e-commerce platform using AI integration, achieving 100% uptime and supporting multi-language localization for global users.
- Engineered a desktop automation tool for media management, reducing manual file organization time by 90% through automated synchronization logic.
- Implemented secure CI/CD workflows using Git and Docker to ensure consistent deployment environments for web applications.

## FORMACIÓN

### Higher Technician in Multiplatform Application Development (CFGS)

IES El Majuelo | 2025 - Present

### Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

## HABILIDADES

#### Backend:

Java, JavaScript, C

#### Bases de datos:

SQL, Oracle

#### DevOps & Tools:

Git, Docker, Matlab/Simulink

#### Languages:

Spanish (Native), English (C1 - Cambridge)

## PROYECTOS RELEVANTES

### El Grano de Oro (AI-Powered E-commerce)

Full-stack web application featuring AI-driven product recommendations and automated email notifications, built with modern web technologies.

### Music Downloader Pro

Desktop application for automated music library management, utilizing Java-based logic and local network synchronization via QR codes.
