PERFIL PROFESIONAL

Full Stack Software Engineer with a strong foundation in Java and JavaScript development. Passionate about building scalable web applications and integrating AI solutions. Proven ability to deliver production-ready software independently, with a focus on clean code, containerization, and efficient database design.

EXPERIENCIA LABORAL

Full Stack Developer (Freelance & Personal Projects)

Independent Projects | 2023 - Present

- Developed and deployed a full-stack e-commerce platform using AI integration, resulting in a 100% automated customer support flow via virtual assistants.
- Engineered a high-performance desktop application for media management, utilizing Docker for consistent deployment environments and reducing setup time by 40%.
- Designed and implemented relational database schemas in SQL to support complex data relationships for business-critical web applications.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technology Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Languages:

Spanish (Native), English (C1 - Cambridge Certified)

Backend & Frontend:

Spring Boot, REST APIs, Full Stack Development

DevOps & Tools:

Git, Docker, Oracle, CI/CD principles

PROYECTOS RELEVANTES

El Grano de Oro (AI-Powered E-commerce)

Full-stack web application featuring AI-driven product recommendations and a multilingual virtual assistant, deployed on Vercel.

Music Downloader Pro

Desktop utility for automated music library management, featuring cross-device synchronization via QR and containerized deployment.
