PERFIL PROFESIONAL

Software Engineer with a strong focus on digital transformation and process optimization. Experienced in building scalable full-stack applications and integrating AI solutions. Passionate about cloud-native architectures, automation, and delivering high-performance software solutions that drive operational efficiency.

EXPERIENCIA LABORAL

Full-Stack Developer & Software Engineer (Freelance)

Independent Projects | 2022 - Present

- Developed and deployed a scalable e-commerce platform with AI-driven recommendations, achieving a 100% uptime and supporting multi-language support for international users.
- Automated music library management workflows, reducing manual organization time by 80% through custom desktop application development.
- Designed and implemented responsive web architectures for business clients, improving digital presence and lead conversion rates by 25%.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technology Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Languages:

JavaScript, Java, C, SQL

Backend & Web:

Node.js, REST APIs, Full-stack Development

Cloud & DevOps:

Docker, Git, CI/CD principles

AI & Integration:

Gemini API, Recommendation Algorithms, Chatbot Development

Databases:

Oracle, SQL

PROYECTOS RELEVANTES

El Grano de Oro (AI-Powered E-commerce)

Full-stack store with integrated AI assistant for personalized product recommendations and automated email notifications.

Music Downloader Pro

Desktop application for automated music library synchronization via WiFi, featuring QR-based mobile connectivity.
