PERFIL PROFESIONAL

Junior Software Developer with a strong foundation in data processing and backend engineering. Specialized in building scalable applications using Python, PySpark, and SQL. Passionate about implementing clean code practices and data-driven solutions in high-stakes environments like the financial sector.

EXPERIENCIA LABORAL

Software Developer (Freelance/Personal Projects)

Independent Projects | 2023 - Present

- Developed data-driven applications integrating AI models, processing user requests with 99% uptime and optimizing response times by 30% through efficient SQL query design.
- Engineered automated data pipelines for music library management, handling large datasets and ensuring data integrity through rigorous validation and clean coding standards.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technology Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Data & Backend:

Python, PySpark, SQL, Java, C

Bases de datos:

Oracle, SQL

Tools & DevOps:

Git, Docker, Matlab/Simulink

Languages:

Spanish (Native), English (C1 Cambridge Certified), French (B1)

PROYECTOS RELEVANTES

El Grano de Oro (AI-Powered E-commerce)

Full-stack platform featuring personalized recommendation algorithms and automated email notifications, supporting 6 languages with a robust administrative panel.

Music Downloader Pro

Desktop application utilizing Python for automated data synchronization and file management, featuring secure WiFi-based mobile integration via QR codes.
