PERFIL PROFESIONAL

Junior Software Engineer with a strong foundation in full-stack development and a passion for scalable architecture. Proficient in Java, JavaScript, and SQL, with hands-on experience in containerization using Docker and version control with Git. Committed to delivering high-quality, user-centric solutions through rapid learning and technical problem-solving.

EXPERIENCIA LABORAL

Full-Stack Developer (Freelance & Personal Projects)

Independent Projects | 2023 - Present

- Developed and deployed a full-stack e-commerce platform using JavaScript and AI integration, achieving 100% uptime and supporting multi-language localization.
- Engineered a desktop automation tool for media management, reducing manual file organization time by 90% for end-users.
- Designed and implemented responsive web interfaces for corporate clients, improving site load times by 30% through optimized HTML/CSS practices.
