PERFIL PROFESIONAL

Software Engineer with a strong focus on Backend development and AI integration. Passionate about building scalable web applications and automated tools. Proficient in Node.js, JavaScript, and integrating LLM APIs to deliver high-performance, user-centric solutions in agile environments.

EXPERIENCIA LABORAL

Full Stack Developer & AI Integrator (Freelance)

Self-Employed | 2023 - Present

- Developed and deployed a full-stack e-commerce platform using Node.js, integrating Gemini AI for personalized product recommendations, resulting in a 20% increase in user engagement.
- Engineered an automated music management system using Node.js and local APIs, reducing manual file organization time by 90% for end-users.
- Implemented automated email notification systems and multi-language support for business clients, improving customer communication efficiency by 40%.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor's Degree in Industrial Technology Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Backend:

Node.js, JavaScript, Java, C

AI & Integration:

LLM APIs, Gemini API, Chatbot Development, Recommendation Algorithms

Bases de datos:

SQL, Oracle

Cloud & Tools:

Docker, Git, Vercel, Matlab/Simulink

PROYECTOS RELEVANTES

El Grano de Oro (AI-Powered E-commerce)

Full-stack store featuring an AI virtual assistant and recommendation engine built with Node.js, serving real-time customer queries in 6 languages.

Music Downloader Pro

Desktop application for automated music library management with WiFi synchronization, utilizing Node.js and local system integration.
