PERFIL PROFESIONAL

Junior Full-Stack Developer with a strong foundation in building scalable web and desktop applications. Passionate about integrating AI into real-world solutions with 2+ years of self-taught experience. Proficient in Java, JavaScript, and SQL, with a focus on containerized deployments using Docker to ensure efficient development workflows.

EXPERIENCIA LABORAL

Full-Stack Developer (Freelance / Personal Projects)

Independent Projects | 2022 - Present

- Developed 'El Grano de Oro', a full-stack e-commerce platform using JavaScript and AI integration, achieving 100% uptime and supporting multi-language functionality for international users.
- Engineered a custom Music Downloader application using Java, automating library synchronization and reducing manual file management time by 90% for end-users.
- Containerized web applications using Docker, streamlining deployment processes and ensuring environment consistency across development and production stages.
- Designed and implemented relational database schemas using SQL to manage product inventories and user data for multiple web projects.

FORMACIÓN

Higher Technician in Multiplatform Application Development (DAM)

IES El Majuelo | 2025 - Present

Bachelor's Degree in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Languages:

Java, JavaScript, SQL, HTML, CSS, C

Backend:

Java, REST APIs

Bases de datos:

Oracle, SQL

Cloud & Tools:

Docker, Git, Matlab/Simulink

PROYECTOS RELEVANTES

El Grano de Oro

Full-stack e-commerce platform with AI-driven recommendations and virtual assistant, deployed via Vercel.

Music Downloader Pro

Desktop application built with Java for automated music library management and cross-device synchronization.
