PERFIL PROFESIONAL

Software Developer with a strong foundation in Java and Python backend development. Experienced in building scalable applications and deploying cloud infrastructure using AWS and Terraform. Proven ability to work autonomously in remote environments, delivering high-quality, production-ready software solutions.

EXPERIENCIA LABORAL

Full Stack Software Developer (Freelance)

Self-Employed | 2022 - Present

- Developed and deployed a production-ready e-commerce platform using Java and Python, integrating AI-driven recommendation engines that increased user engagement by 25%.
- Automated cloud infrastructure provisioning using Terraform on AWS, reducing deployment time by 60% compared to manual configuration.
- Engineered a desktop music management application with automated synchronization, supporting 100+ concurrent users with optimized local data processing.
- Collaborated asynchronously using Git and Jira, maintaining 100% uptime for client-facing web applications through proactive monitoring and CI/CD pipelines.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technology Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Backend:

Java, Python, Spring Boot

Cloud & Infrastructure:

AWS, Terraform, Docker

Databases:

PostgreSQL, Oracle, MySQL

Tools & DevOps:

Git, GitHub Actions, CI/CD, Linux

PROYECTOS RELEVANTES

El Grano de Oro (AI-Powered E-commerce)

Full-stack store with AI chatbot integration using Python and Java, deployed on AWS with automated infrastructure via Terraform.

Music Downloader Pro

Desktop application for automated library management, featuring cross-device synchronization and optimized performance.
