PERFIL PROFESIONAL

Full-Stack Software Developer with a focus on WordPress and AI-driven development. Passionate about building high-performance web solutions and custom architectures. Proficient in PHP, JavaScript, and modern AI tools to accelerate development cycles and deliver scalable, secure digital products.

EXPERIENCIA LABORAL

Freelance Software Developer

Self-Employed | 2023 - Present

- Developed and deployed 3+ custom web applications using WordPress and custom PHP themes, reducing page load times by 35% through optimized database queries and asset management.
- Integrated AI-driven workflows (GitHub Copilot, Cursor) into the development lifecycle, increasing code delivery speed by 40% while maintaining high security standards.
- Architected a custom e-commerce solution with AI-powered product recommendations, supporting multi-language localization and automated email notification systems.
