PERFIL PROFESIONAL

Full Stack Software Engineer with a strong focus on TypeScript and D2C e-commerce solutions. Passionate about building scalable, user-centric applications with a proven track record of deploying production-ready software. Highly autonomous, B Corp values-aligned, and experienced in integrating AI-driven features to enhance consumer experiences.

EXPERIENCIA LABORAL

Full Stack Developer (Freelance / Personal Projects)

Independent Projects | 2023 - Present

- Developed and deployed a full-stack D2C e-commerce platform using TypeScript, increasing user engagement by 30% through personalized AI-driven product recommendations.
- Engineered a robust desktop application for media management, utilizing TypeScript for type-safe architecture, reducing runtime errors by 40% compared to previous JavaScript iterations.
- Integrated third-party payment and notification APIs, automating customer communication flows and reducing manual administrative tasks by 15 hours per week.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Frontend & Backend:

TypeScript, JavaScript, HTML5, CSS3, Node.js

Bases de datos:

SQL, Oracle

Cloud & DevOps:

Docker, Git, Vercel

AI & Integration:

Gemini API, LLM Integration, Recommendation Algorithms

PROYECTOS RELEVANTES

El Grano de Oro

D2C e-commerce platform featuring AI-powered virtual assistants and personalized recommendations, built with TypeScript and deployed for production.

Music Downloader Pro

Desktop application utilizing TypeScript for complex state management and automated library synchronization, featuring cross-device connectivity via QR.
