PERFIL PROFESIONAL

Software Developer with a strong foundation in Java and full-stack development. Passionate about building secure, scalable applications with a focus on clean code and database integrity. Eager to leverage academic background in Industrial Engineering and technical proficiency in Java, SQL, and AI integration to contribute to the banking sector at Banco Hipotecario.

EXPERIENCIA LABORAL

Full-Stack Developer (Freelance/Personal Projects)

Self-Employed | 2023 - Present

- Developed and deployed a full-stack e-commerce platform using AI-driven recommendations, resulting in a 20% increase in user engagement through personalized product suggestions.
- Engineered a desktop automation tool for data management, reducing manual file processing time by 80% for end-users.
- Implemented secure database schemas and RESTful APIs, ensuring data consistency and robust error handling across all production applications.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present
