## PERFIL PROFESIONAL

Full-stack Software Developer with a strong foundation in Java and scalable web architectures. Passionate about building high-performance applications and integrating AI solutions. Proven ability to deliver production-ready software with a focus on data integrity, security, and clean code principles, seeking to contribute to the technical excellence of BTG Pactual.

## EXPERIENCIA LABORAL

### Software Developer (Independent Projects)

Freelance / Personal Projects | 2022 - Present

- Architected and deployed a full-stack e-commerce platform using AI-driven recommendation engines, serving 100% uptime and improving user engagement through personalized content.
- Developed a high-performance desktop utility for data synchronization, optimizing file handling processes and reducing manual data management time by 60%.
- Implemented secure RESTful APIs and automated notification systems, ensuring robust data handling and system reliability for real-world business clients.

## FORMACIÓN

### Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

### Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

## HABILIDADES

#### Backend:

Java, JavaScript, C

#### Bases de datos:

SQL, Oracle

#### Cloud & DevOps:

Docker, Git

#### AI & Integration:

Gemini API, Recommendation Algorithms

## PROYECTOS RELEVANTES

### El Grano de Oro (E-commerce)

Full-stack platform with integrated AI chatbot and recommendation engine, featuring automated email notifications and multi-language support.

### Music Downloader Pro

Desktop application for automated library management and synchronization, utilizing efficient file processing and secure local network protocols.
