PERFIL PROFESIONAL

Full-Stack Software Engineer with a strong focus on AI-native development and rapid prototyping. Experienced in building scalable web applications and integrating LLMs into production environments. Proficient in modern web stacks and leveraging AI-assisted coding tools (Cursor, Claude Code) to accelerate development cycles and improve code quality.

EXPERIENCIA LABORAL

Full-Stack Developer & AI Integrator

Freelance / Independent Projects | 2023 - Present

- Architected and deployed a full-stack e-commerce platform using AI-driven recommendation engines, resulting in a 20% increase in user engagement through personalized product suggestions.
- Integrated Gemini API into production applications, automating customer support workflows and reducing manual response time by 90%.
- Developed custom desktop automation tools using TypeScript and modern frameworks, streamlining data management workflows for end-users.
- Leveraged Cursor and AI-assisted coding workflows to increase development velocity by 40% while maintaining high code maintainability.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

AI & Development Tools:

Cursor, Claude Code, Codex, AI-Assisted Development

Backend:

PHP, Laravel, Java, SQL

Frontend:

TypeScript, React, React Native, HTML/CSS

Data & Cloud:

dbt, Redshift, Docker, Git

PROYECTOS RELEVANTES

El Grano de Oro (AI-Powered E-commerce)

Full-stack store with integrated AI virtual assistant and personalized recommendation engine, deployed on Vercel.

Music Downloader Pro

Desktop application for automated library management with cross-device synchronization via QR, built with TypeScript.

Catering SanMor

Professional corporate web platform developed from scratch, optimized for performance and SEO.
