PERFIL PROFESIONAL

Aspiring AI Software Engineer with a strong foundation in computer science and software architecture. Passionate about building scalable applications and integrating AI models. Proficient in full-stack development, algorithm optimization, and rapid problem-solving, with a C1 English proficiency and a focus on high-performance software engineering.

EXPERIENCIA LABORAL

Full-Stack Developer & AI Integrator (Freelance)

Independent Projects | 2023 - Present

- Architected and deployed a full-stack e-commerce platform with integrated AI-driven recommendation engines, serving 100% of user traffic via Vercel.
- Developed a custom AI assistant using Gemini API, reducing manual customer support queries by 40% through automated response logic.
- Engineered a high-performance desktop application for media management, optimizing data synchronization processes by 50% using efficient multi-threading techniques.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

Elements of AI Certification

University of Helsinki | 2024

HABILIDADES

Programming Languages:

Java, JavaScript, C, SQL

AI & Machine Learning:

Gemini API, AI Integration, Algorithm Design

Software Engineering:

System Architecture, Full-Stack Development, Git, Docker

Tools & Platforms:

Oracle, Matlab/Simulink, Vercel, GitHub

PROYECTOS RELEVANTES

El Grano de Oro (AI-Powered E-commerce)

Full-stack web application featuring an AI assistant and personalized recommendation algorithms for product discovery.

Music Downloader Pro

Desktop application for automated library management, utilizing efficient file handling and cross-device synchronization via QR.
