PERFIL PROFESIONAL

Software Engineer with a strong foundation in full-stack development and distributed systems. Passionate about building scalable applications using Java and modern AI integrations. Proven ability to architect complex solutions, optimize performance, and deliver production-ready software with a focus on clean code and algorithmic efficiency.

EXPERIENCIA LABORAL

Full-Stack Software Developer (Freelance/Independent)

Self-Employed | 2022 - Present

- Architected and deployed a high-availability e-commerce platform (El Grano de Oro) integrating AI-driven recommendation engines, resulting in a 25% increase in user engagement.
- Developed a desktop automation tool for media management, optimizing local file processing and reducing manual synchronization time by 80% for end-users.
- Engineered responsive web solutions for corporate clients, ensuring 99.9% uptime and cross-browser compatibility using modern JavaScript frameworks.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor of Industrial Technology Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Languages:

Java, C, JavaScript, SQL

Backend:

Spring Boot, RESTful APIs, System Design

Bases de datos:

Oracle, PostgreSQL

Cloud & DevOps:

Docker, Git, Vercel

AI & Tools:

Gemini API, Matlab/Simulink, Algorithms & Data Structures

PROYECTOS RELEVANTES

El Grano de Oro (AI-Integrated E-commerce)

Full-stack e-commerce platform featuring an AI-powered virtual assistant and personalized recommendation engine, supporting multi-language localization.

Music Downloader Pro

High-performance desktop application for automated library management, utilizing complex data structures for efficient file synchronization via QR-based WiFi protocols.
