PERFIL PROFESIONAL

Full-Stack Software Engineer with a focus on Design Engineering and 2+ years of experience building scalable web applications. Expert in bridging the gap between high-fidelity UI/UX design and technical implementation using TypeScript, React, and Node.js. Proven track record of shipping production-ready features with a focus on performance and user-centric design.

EXPERIENCIA LABORAL

Full-Stack Developer & Design Engineer (Freelance)

Independent Projects | 2023 - Present

- Architected and deployed a full-stack e-commerce platform using React and Node.js, integrating AI-driven recommendation engines that increased user engagement by 25%.
- Developed a custom design system for multiple web applications, reducing UI development time by 40% through reusable component architecture.
- Optimized database performance for high-traffic applications using PostgreSQL and Redis, resulting in a 30% reduction in API response latency.
- Implemented GraphQL APIs to streamline data fetching, improving frontend performance and reducing network payload by 15%.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

B.Sc. in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Frontend:

TypeScript, React, CSS, UI/UX Design

Backend:

Node.js, GraphQL, Java

Bases de datos:

PostgreSQL, Redis

DevOps & Tools:

Docker, Git, GitHub Actions

PROYECTOS RELEVANTES

El Grano de Oro

Full-stack e-commerce platform with AI-integrated virtual assistant, built with React, Node.js, and PostgreSQL, supporting multi-language localization.

Music Downloader Pro

High-performance desktop application for music library management, featuring automated synchronization and cross-device connectivity via QR.
