PERFIL PROFESIONAL

Software Engineer with a strong foundation in full-stack development and a passion for distributed systems and automation. Experienced in building scalable web applications and integrating AI-driven solutions. Committed to high-performance software engineering, leveraging Java, JavaScript, and cloud-native technologies to solve complex technical challenges.

EXPERIENCIA LABORAL

Software Developer (Freelance/Independent)

Self-Employed | 2022 - Present

- Developed and deployed a full-stack e-commerce platform with AI-driven product recommendations, achieving a 99.9% uptime and supporting multi-language localization.
- Engineered a high-performance desktop automation tool for media management, reducing manual file processing time by 80% for end-users.
- Architected and maintained corporate web solutions using modern CI/CD pipelines, ensuring rapid deployment cycles and optimized performance.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Languages:

Java, JavaScript, SQL, C

Backend & Frameworks:

Spring Boot, Node.js, RESTful APIs

Cloud & Infrastructure:

Docker, Vercel, Git, CI/CD

Databases:

Oracle, PostgreSQL

Specializations:

AI Integration, System Automation, Distributed Systems

PROYECTOS RELEVANTES

El Grano de Oro (AI-Integrated E-commerce)

Full-stack platform featuring an AI-powered virtual assistant and personalized recommendation engine, deployed with automated email notifications.

Music Downloader Pro

Desktop application for automated library management with cross-device synchronization via QR code, built for high-efficiency file handling.
