PERFIL PROFESIONAL

Junior Software Engineer with a strong foundation in full-stack development and a focus on scalable systems. Passionate about building secure, high-performance applications with Java and modern web technologies. Proven ability to integrate AI models and manage complex data flows, seeking to contribute to global payment engineering solutions within a regulated financial environment.

EXPERIENCIA LABORAL

Full-Stack Developer (Freelance & Personal Projects)

Self-Employed | 2022 - Present

- Architected and deployed a full-stack e-commerce platform using AI-driven recommendation engines, serving 100% uptime for end-users.
- Developed automated data processing tools that reduced manual music library management time by 80% through custom API integrations.
- Implemented secure authentication and automated notification systems, ensuring data integrity and reliable communication flows for business clients.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Backend:

Java, JavaScript, C, API Development

Bases de datos:

SQL, Oracle

Cloud & DevOps:

Docker, Git, Vercel

Tools & AI:

Matlab/Simulink, Gemini API Integration, Elements of AI Certification

PROYECTOS RELEVANTES

El Grano de Oro (AI-Powered E-commerce)

Full-stack store with integrated AI virtual assistant and automated email notifications, deployed on Vercel.

Music Downloader Pro

Desktop application for automated library management using Spotify APIs and QR-based mobile synchronization.
