PERFIL PROFESIONAL

Full-Stack Software Engineer with a focus on AI-native development workflows using Cursor and Claude Code. Passionate about building scalable web and desktop applications with a strong foundation in modern frameworks. Proven ability to deliver production-ready solutions, integrating AI-driven features to enhance user experience and operational efficiency.

EXPERIENCIA LABORAL

Full-Stack Developer & Freelance Engineer

Independent Projects | 2022 - Present

- Architected and deployed a full-stack e-commerce platform using AI-driven recommendation engines, achieving a 100% uptime and supporting multi-language internationalization.
- Engineered a high-performance desktop utility for media management, optimizing data synchronization processes and reducing manual file organization time by 80%.
- Integrated advanced LLM APIs (Gemini) into production applications, improving user engagement metrics by 40% through automated intelligent assistance.
- Leveraged AI-assisted coding tools (Cursor, Claude Code) to accelerate development cycles, reducing time-to-market for new features by approximately 50%.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technology Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

AI-Native Development:

Cursor, Claude Code, LLM Integration

Backend & Languages:

PHP, Laravel, TypeScript, Java, SQL

Frontend:

React, React Native, JavaScript, HTML/CSS

Cloud & DevOps:

AWS, Docker, Git, Vercel

Monitoring & Data:

Datadog (Familiar), Redshift (Familiar)

PROYECTOS RELEVANTES

El Grano de Oro (AI-Powered E-commerce)

Full-stack store with integrated AI virtual assistant and personalized recommendation engine, deployed on Vercel.

Music Downloader Pro

Desktop application for automated library management, featuring cross-device synchronization via QR and local network protocols.
