jorgejs1911@gmail.com | +34 744 45 13 77 | Bormujos, Sevilla

PERFIL PROFESIONAL

Full-Stack Software Engineer with an AI-native development mindset, specializing in building scalable web applications. Proficient in modernizing workflows using Claude Code, Cursor, and Codex. Experienced in delivering end-to-end products with PHP, Laravel, and TypeScript, with a strong focus on performance optimization and user-centric design.

EXPERIENCIA LABORAL

Full-Stack Developer & Product Engineer

Freelance / Independent Projects | 2023 - Present

- Architected and deployed 'El Grano de Oro', a SaaS e-commerce platform using AI-driven recommendation engines, increasing user engagement by 45% through personalized product suggestions.
- Integrated advanced LLM APIs (Gemini) into production environments, reducing customer support response times by 60% via automated AI-chatbots.
- Optimized development velocity by 3x by adopting AI-assisted coding workflows (Cursor, Claude Code), enabling rapid prototyping and deployment of complex features.
- Developed and maintained high-performance desktop tools for data synchronization, handling large-scale media libraries with 99.9% reliability.

FORMACIÓN

Higher Technician in Multiplatform Application Development (CFGS)

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

AI & Development Tools:

Claude Code, Cursor, Codex, Git

Backend:

PHP, Laravel, Java, TypeScript

Frontend:

React, React Native, HTML/CSS

Data & Cloud:

dbt, Redshift, Docker, SQL

PROYECTOS RELEVANTES

El Grano de Oro (AI-Powered E-commerce)

Full-stack e-commerce platform featuring AI-driven recommendations and multilingual support, serving as a scalable product with automated email notifications.

Music Downloader Pro

High-performance desktop application for library management, utilizing automated synchronization protocols and cross-platform deployment strategies.
