PERFIL PROFESIONAL

Frontend Software Engineer with a strong foundation in building scalable, responsive web applications. Passionate about clean code and performance optimization, with proven experience integrating AI-driven features and delivering production-ready software using JavaScript, HTML, and CSS. Highly adaptable learner with a C1 English proficiency, ready to contribute to high-impact engineering teams.

EXPERIENCIA LABORAL

Full Stack Developer (Freelance / Personal Projects)

Independent Projects | 2023 - Present

- Developed and deployed a full-stack e-commerce platform using modern JavaScript frameworks, achieving a 95+ Lighthouse performance score through optimized asset loading and responsive design.
- Integrated Gemini AI API into web applications, reducing user support response times by 80% through automated virtual assistance.
- Built and maintained custom desktop tools for automated data processing, improving workflow efficiency by 40% for end-users.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Frontend:

JavaScript, HTML5, CSS3, Responsive Design, Web Performance

Backend:

Java, C

Bases de datos:

SQL, Oracle

Tools & Cloud:

Git, Docker, Matlab/Simulink

PROYECTOS RELEVANTES

El Grano de Oro

E-commerce platform with AI-driven recommendations and virtual assistant, supporting 6 languages and deployed on Vercel.

Music Downloader Pro

Desktop application for automated music library management with WiFi synchronization, built for high-performance local execution.

Catering SanMor

Professional corporate website developed from scratch, focusing on accessibility and cross-browser compatibility.
