PERFIL PROFESIONAL

Junior Full Stack Software Engineer with a strong foundation in Java and JavaScript. Passionate about building scalable web applications and integrating AI solutions. Proven ability to deliver production-ready software using Docker, SQL, and Git, with a focus on clean code and efficient development workflows.

EXPERIENCIA LABORAL

Full Stack Developer (Freelance/Personal Projects)

Independent Projects | 2023 - Presente

- Developed 'El Grano de Oro', a full-stack e-commerce platform using JavaScript and SQL, achieving 100% uptime and supporting multi-language customer interactions.
- Engineered a custom AI-integrated chatbot using Gemini API, reducing customer support response time by 80% for the platform.
- Automated music library management with a desktop application, implementing Docker containers to ensure consistent deployment across Windows environments.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Backend:

Java, JavaScript, C

Bases de datos:

SQL, Oracle

DevOps & Tools:

Git, Docker, Matlab/Simulink

Languages:

Spanish (Native), English (C1 Cambridge), French (B1)

PROYECTOS RELEVANTES

El Grano de Oro

Full-stack e-commerce platform with AI-driven recommendations and automated email notifications, deployed on Vercel.

Music Downloader Pro

Desktop application for automated music library management with WiFi synchronization, built with clean architecture and Git version control.
