PERFIL PROFESIONAL

Junior Full-Stack Software Engineer with a strong foundation in Java, JavaScript, and SQL. Passionate about building scalable applications and integrating AI solutions. Proven ability to deliver production-ready software using Docker and Git, with a focus on clean code and efficient database architecture.

EXPERIENCIA LABORAL

Software Developer (Freelance / Personal Projects)

Self-Employed | 2023 - Presente

- Developed and deployed a full-stack e-commerce platform using JavaScript and SQL, achieving 99.9% uptime and supporting multi-language localization.
- Engineered a desktop music management application with Java, implementing automated synchronization protocols that reduced manual file management time by 80%.
- Containerized multiple web applications using Docker, streamlining deployment workflows and ensuring environment consistency across development and production.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Presente

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Presente

HABILIDADES

Backend:

Java, JavaScript, RESTful APIs

Bases de datos:

SQL, Oracle

Cloud:

Docker, Git, Vercel

Languages:

English (C1 Cambridge), Spanish (Native)

PROYECTOS RELEVANTES

El Grano de Oro (E-commerce)

Full-stack store with AI-driven recommendations and virtual assistant, built with JavaScript and SQL, deployed via Vercel.

Music Downloader Pro

Java-based desktop application for automated library management, featuring QR-based WiFi synchronization.
