PERFIL PROFESIONAL

Software Developer with a strong focus on Python and full-stack architecture. Passionate about music technology and data-heavy applications, with proven experience building scalable web solutions and AI-integrated tools. Proficient in English (C1) and committed to delivering high-quality, maintainable code in Agile environments.

EXPERIENCIA LABORAL

Software Developer (Freelance / Personal Projects)

Independent Projects | 2022 - Present

- Architected and deployed a high-traffic e-commerce platform using AI-driven recommendations, achieving a 99% uptime and supporting multi-language support for global users.
- Developed a high-performance music management application that processes large audio metadata libraries, reducing manual organization time by 80% through automated synchronization.
- Implemented CI/CD workflows and containerization using Docker to streamline deployment processes, reducing manual configuration time by 60%.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Backend:

Python 3, FastAPI, SQLAlchemy, JavaScript

Bases de datos:

PostgreSQL, MongoDB, PyMongo, Elasticsearch

Cloud & DevOps:

AWS, Docker, Bitbucket Pipelines, Git

Languages:

English (C1 - Cambridge Certified), Spanish (Native)

PROYECTOS RELEVANTES

Music Downloader Pro

Desktop application for large-scale music library management, utilizing automated metadata processing and synchronization protocols.

El Grano de Oro (AI-Integrated SaaS)

Full-stack e-commerce platform featuring AI-driven product recommendations and automated virtual assistant integration.
