PERFIL PROFESIONAL

Full Stack Developer with a strong foundation in Java and JavaScript, focused on building scalable web and desktop applications. Passionate about software architecture and AI integration, with hands-on experience in full-cycle development, Docker containerization, and Git version control. Committed to delivering high-quality, maintainable code in agile environments.

EXPERIENCIA LABORAL

Full Stack Developer (Freelance / Personal Projects)

Independent Projects | 2023 - Present

- Developed and deployed a full-stack e-commerce platform using JavaScript and AI integration, achieving 100% uptime and supporting multi-language functionality for global users.
- Engineered a desktop automation tool for media management, reducing manual file organization time by 90% through custom Java-based logic and automated synchronization workflows.
- Designed and maintained responsive corporate web applications, improving client digital presence and increasing site traffic by 40% through optimized SEO and clean code practices.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor's Degree in Industrial Technology Engineering

Universidad de Sevilla | 2022 - Present
