PERFIL PROFESIONAL

Software Engineer with a strong focus on backend development and API-first architectures. Experienced in building scalable web applications and integrating AI models into production environments. Proficient in Java, JavaScript, and cloud-native tools, with a proven ability to deliver high-performance solutions and optimize system workflows.

EXPERIENCIA LABORAL

Full Stack Developer (Freelance)

Self-Employed | 2022 - Present

- Developed and deployed a high-traffic e-commerce platform using modern web stacks, achieving a 99.9% uptime and integrating AI-driven recommendation engines.
- Engineered custom desktop automation tools using Java and Python, reducing manual data processing time by 60% for end-users.
- Designed and implemented RESTful APIs for corporate clients, ensuring secure data handling and seamless integration with third-party services.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor's Degree in Industrial Technology Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES
