PERFIL PROFESIONAL

Junior Software Engineer with a strong foundation in full-stack development and data-driven applications. Passionate about building secure, scalable software solutions with a focus on data integrity and backend architecture. Proficient in Java, JavaScript, and SQL, with a proven ability to integrate complex AI models and automate workflows to improve operational efficiency.

EXPERIENCIA LABORAL

Software Developer (Freelance / Personal Projects)

Independent Projects | 2023 - Present

- Developed and deployed a full-stack e-commerce platform with AI-driven recommendations, increasing user engagement by 25% through personalized product suggestions.
- Engineered an automated music management system using Java and SQL, reducing manual data organization time by 60% for end-users.
- Implemented secure administrative panels and automated email notification systems, ensuring 99.9% uptime for client-facing web applications.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor's Degree in Industrial Technology Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Backend:

Java, C, Node.js

Frontend:

HTML5, CSS3, JavaScript

Bases de datos:

SQL, Oracle

Cloud & DevOps:

Docker, Git, Vercel

Languages:

Spanish (Native), English (C1 Cambridge Certified), French (B1)

PROYECTOS RELEVANTES

El Grano de Oro (AI E-commerce)

Full-stack web application featuring an AI-powered virtual assistant and multi-language support, deployed on Vercel.

Music Downloader Pro

Desktop application built for efficient data synchronization and library management, featuring secure WiFi-based mobile integration.
