PERFIL PROFESIONAL

Software Engineer with a strong foundation in Backend development and a focus on building scalable applications. Proficient in Java, SQL, and Docker, with a proven track record of deploying full-stack solutions and integrating AI-driven features. Passionate about optimizing performance and automating development workflows.

EXPERIENCIA LABORAL

Full Stack Developer (Freelance/Personal Projects)

Independent Projects | 2022 - Present

- Developed and deployed 'El Grano de Oro', a scalable e-commerce platform using modern web stacks, integrating AI-driven recommendation engines that improved user engagement by 25%.
- Engineered a high-performance desktop application for media management, implementing automated data synchronization and containerized deployment workflows using Docker, reducing setup time by 40%.
- Designed and maintained custom SQL database schemas for business applications, optimizing query execution times by 30% through efficient indexing and normalization.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor's Degree in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Backend:

Java, Spring Boot, REST APIs, Algorithms

Bases de datos:

SQL, Oracle, PostgreSQL

Cloud:

Docker, Vercel, Git, CI/CD

Languages:

English (C1), Spanish (Native), French (B1)

PROYECTOS RELEVANTES

El Grano de Oro

Full-stack e-commerce platform with AI integration, featuring automated email notifications and multi-language support.

Music Downloader Pro

Desktop application for automated music library management, packaged for Windows with Docker-based deployment workflows.
