PERFIL PROFESIONAL

Software Engineer Junior with a strong foundation in full-stack development and industrial engineering. Passionate about building scalable applications using Java, JavaScript, and C. Proven ability to integrate AI models into production-ready software and a fast learner committed to clean code and modern DevOps practices.

EXPERIENCIA LABORAL

Software Developer (Independent Projects)

Self-Employed | 2023 - Present

- Developed and deployed a full-stack e-commerce platform for a local business, integrating AI-driven virtual assistants that improved user engagement by 35%.
- Engineered a desktop automation tool for media management, reducing manual file organization time by 90% for end-users.
- Built and maintained responsive web interfaces for corporate clients, ensuring 99.9% uptime and cross-browser compatibility.

FORMACIÓN

Higher Technician in Multiplatform Application Development (DAM)

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technology Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Languages:

Java, JavaScript, C, SQL, HTML, CSS

Tools & DevOps:

Git, Docker, Matlab/Simulink

Databases:

Oracle, SQL

Specialization:

AI Integration, Desktop Application Development, Full-stack Web Development

PROYECTOS RELEVANTES

El Grano de Oro (AI-Powered E-commerce)

Full-stack store with AI chatbot integration, automated email notifications, and multi-language support deployed on Vercel.

Music Downloader Pro

Desktop application built for Windows to automate music library management with WiFi-based mobile synchronization.
