PERFIL PROFESIONAL

Full Stack Software Engineer with a strong foundation in Computer Science and 2+ years of experience building scalable web and desktop applications. Specialized in developing high-performance systems using Java and JavaScript. Proven track record of deploying production-ready solutions with AI integration and automated workflows.

EXPERIENCIA LABORAL

Full Stack Developer (Freelance/Independent)

Self-Employed | 2022 - Present

- Architected and deployed a full-stack e-commerce platform using JavaScript and AI-driven recommendation engines, achieving a 99.9% uptime and supporting multi-language localization.
- Developed a custom desktop automation tool for media management, reducing manual file processing time by 80% for end-users through optimized synchronization algorithms.
- Engineered responsive web interfaces for corporate clients, improving user engagement metrics by 40% through performance-focused frontend optimization.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Languages:

Java, JavaScript, SQL, C

Backend:

Spring Boot, RESTful APIs, Node.js

Frontend:

HTML5, CSS3, React

Bases de datos:

Oracle, PostgreSQL, MySQL

Cloud & Tools:

Docker, Git, GitHub Actions, Linux

PROYECTOS RELEVANTES

El Grano de Oro (AI-Integrated E-commerce)

Full-stack platform featuring an AI virtual assistant and automated email notification system, deployed on Vercel with high-availability architecture.

Music Downloader Pro

Desktop application built for high-performance file management and synchronization, utilizing advanced algorithms to process large music libraries efficiently.
