jorgejs1911@gmail.com | +34 744 45 13 77 | Bormujos, Sevilla

## PERFIL PROFESIONAL

Software Engineer specialized in AI and Cybersecurity with a strong foundation in full-stack development. Passionate about building scalable, secure applications in highly regulated environments. Proficient in integrating LLMs and automation tools to solve complex business problems, with a C1 English proficiency for international collaboration.

## EXPERIENCIA LABORAL

### Software Engineer & AI Developer (Freelance/Projects)

*Independent Projects | 2023 - Present*

- Developed an AI-driven e-commerce platform integrating Gemini API, resulting in a 100% automated customer support workflow and personalized recommendation engine.
- Engineered a secure desktop automation tool for data management, optimizing file processing workflows by 50% through automated synchronization and encrypted local storage.
- Implemented robust web solutions for corporate clients, ensuring high availability and adherence to data privacy standards in digital service delivery.

## FORMACIÓN

### Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

### Bachelor's Degree in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

### Elements of AI Certification

University of Helsinki | 2024

## HABILIDADES

### AI & Machine Learning:

Gemini API, Elements of AI, Recommendation Algorithms

### Backend & Languages:

Java, JavaScript, C, SQL

### Cloud & DevOps:

Docker, Vercel, Git

### Cybersecurity & Data:

Data Privacy Standards, Secure API Integration, Automated Systems

## PROYECTOS RELEVANTES

### El Grano de Oro (AI E-commerce)

Full-stack store with integrated AI chatbot and recommendation system, supporting 6 languages and automated email notifications.

### Music Downloader Pro

Desktop application for secure library management and WiFi-based synchronization, featuring automated data processing and local encryption.
