PERFIL PROFESIONAL

Frontend Software Engineer with a strong foundation in building scalable, component-based web applications. Passionate about UI performance and clean code, with proven experience integrating AI services and deploying full-stack solutions. Highly adaptable, C1 English proficient, and focused on delivering high-quality user experiences.

EXPERIENCIA LABORAL

Full Stack Developer (Freelance/Personal Projects)

Independent Projects | 2023 - Present

- Developed and deployed 'El Grano de Oro', a high-performance e-commerce platform, achieving a 30% improvement in load times through optimized asset management and component-based architecture.
- Integrated Gemini AI API into production web applications, enabling automated customer support and personalized recommendation engines that increased user engagement by 25%.
- Engineered a cross-platform desktop application for music management, implementing a custom QR-based synchronization protocol that reduced manual file transfer time by 80%.

FORMACIÓN

Higher Technician in Multiplatform Application Development (DAM)

IES El Majuelo | 2025 - Present

Bachelor's Degree in Industrial Technology Engineering

Universidad de Sevilla | 2022 - Present
