PERFIL PROFESIONAL

Full-Stack Software Developer with a strong focus on building data-intensive applications and scalable backend architectures. Proficient in Java, Node.js, and Python, with a proven track record of integrating AI models and optimizing data-driven workflows. Committed to delivering high-performance solutions for complex business logic.

EXPERIENCIA LABORAL

Full-Stack Developer (Freelance / Personal Projects)

Independent Projects | 2022 - Present

- Architected and deployed a full-stack e-commerce platform using Node.js and AI-driven recommendation engines, increasing user engagement by 35% through personalized product suggestions.
- Developed a high-performance desktop utility for data synchronization, reducing manual file management time by 80% for end-users.
- Engineered robust REST APIs to bridge raw data processing with frontend delivery, ensuring sub-200ms response times for data-heavy requests.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Backend:

Java, Node.js, Python, REST APIs

Frontend:

React, HTML, CSS

Bases de datos:

PostgreSQL, Oracle, SQL

Cloud & DevOps:

AWS, Docker, Git

PROYECTOS RELEVANTES

El Grano de Oro (AI-Powered E-commerce)

Full-stack platform featuring an AI-integrated chatbot and recommendation system, deployed with automated email notifications and multi-language support.

Music Downloader Pro

Desktop application for automated library management and data synchronization, utilizing complex file handling and local network protocols.
