

# Jorge Jaime Sena

jorgejs1911@gmail.com | +34 744 45 13 77 | Bormujos, Sevilla

## PERFIL PROFESIONAL

Software Developer with a strong foundation in C and systems programming. Passionate about Linux internals and low-level optimization. Proficient in Git workflows and AI-assisted debugging, seeking to leverage technical skills in C and GNU/Linux environments as a C Developer Intern.

## EXPERIENCIA LABORAL

### Full-Stack Developer (Freelance)

Self-Employed | 2023 - Presente

- Developed and deployed 3 production-ready applications, optimizing system performance and reducing latency by 25% through efficient code refactoring.
- Integrated AI coding assistants to automate unit testing and debugging, resulting in a 30% reduction in development cycle time for complex features.
- Managed version control workflows (branching, merging, patching) for multiple repositories, ensuring 100% code integrity across deployments.

## FORMACIÓN

### Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

### Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

## HABILIDADES

### Systems Programming:

C, Linux Kernel Concepts, Memory Management, Data Structures

### Tools & Workflow:

Git, GNU/Linux, Shell Scripting, AI Coding Assistants

### Development:

JavaScript, Java, SQL, Docker

### Languages:

Spanish (Native), English (C1 - Cambridge)

## PROYECTOS RELEVANTES

### Music Downloader Pro

Desktop application utilizing C-based logic for file handling and system-level synchronization, demonstrating strong memory management and debugging skills.

### AI-Integrated Web Solutions

Developed scalable web platforms integrating LLMs (Gemini) for automated recommendations, optimizing backend response times by 40%.
