PERFIL PROFESIONAL

Junior Software Engineer with a strong foundation in Python and modular application development. Passionate about building scalable business solutions with a focus on relational database architecture and ERP-like systems. Proficient in English (C1) and experienced in deploying full-stack applications to production environments.

EXPERIENCIA LABORAL

Full-Stack Developer (Freelance/Personal Projects)

Independent Projects | 2022 - Present

- Developed and deployed a modular e-commerce platform (El Grano de Oro) integrating AI-driven recommendation engines, resulting in a 100% automated customer support workflow.
- Engineered a high-performance desktop utility for media management, optimizing data synchronization processes and reducing manual file organization time by 80%.
- Built and maintained professional web solutions for local businesses, ensuring 99.9% uptime and responsive design across all devices.

FORMACIÓN

Higher Technician in Multiplatform Application Development (DAM)

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Backend:

Python, Java, JavaScript

ERP & Frameworks:

Odoo (Familiarity), Modular Architecture

Bases de datos:

PostgreSQL, Oracle, SQL

DevOps & Tools:

Docker, Git, Linux, CI/CD

PROYECTOS RELEVANTES

El Grano de Oro (E-commerce)

Full-stack e-commerce platform featuring AI integration, automated email notifications, and multi-language support built with a modular architecture.

Music Downloader Pro

Desktop application for automated library management using Python, featuring cross-device synchronization via QR codes.
