PERFIL PROFESIONAL

Junior Software Developer with a strong foundation in Java and backend architecture. Passionate about building scalable applications with a focus on clean code and performance. Currently specializing in Quarkus and enterprise-grade systems, with a proven track record of deploying full-stack solutions and integrating AI-driven features.

EXPERIENCIA LABORAL

Full-Stack Developer (Freelance / Personal Projects)

Independent Projects | 2022 - Present

- Developed and deployed a high-performance e-commerce platform using modern web stacks, achieving 99.9% uptime and integrating AI-driven recommendation engines.
- Engineered a desktop automation tool for music management, reducing manual file organization time by 90% for end-users through automated synchronization algorithms.
- Built and maintained corporate web solutions, improving client digital presence and increasing user engagement by 40% through optimized UI/UX and responsive design.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Backend:

Java, Quarkus, Spring Boot, REST APIs, Dependency Injection

Bases de datos:

SQL, Oracle, PostgreSQL

Cloud & DevOps:

Docker, Git, Vercel

Languages:

Java, JavaScript, C, HTML/CSS

PROYECTOS RELEVANTES

El Grano de Oro (AI-Integrated E-commerce)

Full-stack e-commerce platform featuring AI-driven virtual assistants and automated email notifications, serving international users in 6 languages.

Music Downloader Pro

Desktop application built for automated music library management with cross-device synchronization via QR code, optimized for Windows environments.
