PERFIL PROFESIONAL

Aspiring Graduate AI Software Engineer with a strong foundation in computer science and algorithmic problem-solving. Passionate about building scalable software and integrating AI models into production environments. Proficient in full-stack development, Python, and Java, with a proven track record of deploying high-performance applications and optimizing user-facing features.

EXPERIENCIA LABORAL

Full-Stack Software Developer (Freelance & Personal Projects)

Independent Projects | 2022 - Present

- Architected and deployed an AI-powered e-commerce platform serving 6 languages, integrating Gemini API to provide personalized product recommendations, increasing user engagement by 25%.
- Developed a high-performance desktop utility for media management, implementing efficient data synchronization protocols that reduced manual file organization time by 90% for end-users.
- Engineered a professional corporate web presence using modern frameworks, achieving a 99% uptime and optimizing load times by 40% through efficient asset management.

FORMACIÓN

Higher Technician in Multiplatform Application Development (DAM)

IES El Majuelo | 2025 - Expected

Bachelor's Degree in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

Elements of AI Certification

University of Helsinki | 2024

HABILIDADES

AI & Machine Learning:

Gemini API, AI Integration, Algorithmic Optimization

Programming Languages:

Python, Java, JavaScript, C

Backend & Web:

Node.js, REST APIs, HTML5, CSS3

Tools & DevOps:

Git, Docker, Oracle, MATLAB/Simulink

PROYECTOS RELEVANTES

El Grano de Oro (AI-Integrated SaaS)

Full-stack e-commerce platform featuring an AI-driven virtual assistant and personalized recommendation engine deployed on Vercel.

Music Downloader Pro

Desktop application built for automated media library management with cross-device synchronization via QR-based WiFi protocols.
