PERFIL PROFESIONAL

Aspiring Software Engineer with a strong foundation in full-stack development and systems integration. Passionate about aerospace technology and data processing, with proven experience building scalable web applications and AI-driven tools. Proficient in Java, JavaScript, and C, with a focus on delivering high-performance, production-ready software solutions.

EXPERIENCIA LABORAL

Full-Stack Developer (Freelance & Personal Projects)

Independent Projects | 2022 - Present

- Developed and deployed 'El Grano de Oro', a full-stack e-commerce platform with AI-driven product recommendations, achieving 100% uptime and supporting multi-language functionality.
- Engineered a high-performance desktop application for automated media management, reducing manual file organization time by 90% for end-users.
- Integrated advanced AI models (Gemini API) into production environments, enhancing user engagement through intelligent chatbot interactions.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Programming Languages:

Java, JavaScript, C, SQL, HTML/CSS

Software Development:

Git, Docker, REST APIs, Systems Integration, AI/ML Integration

Tools & Platforms:

Matlab/Simulink, Oracle, Vercel, GitHub Actions

Languages:

Spanish (Native), English (C1 - Cambridge Certified), French (B1)

PROYECTOS RELEVANTES

El Grano de Oro (AI-Integrated E-commerce)

Full-stack web application featuring an AI-powered virtual assistant and personalized recommendation engine, deployed on Vercel.

Music Downloader Pro

Desktop automation tool built with C/C++ and JavaScript, enabling automated library synchronization via local network/QR.

Catering SanMor

Professional corporate web platform developed from scratch, serving as a high-traffic digital storefront for a local business.
