PERFIL PROFESIONAL

Aspiring Platform Engineer with a strong foundation in software development and cloud infrastructure. Passionate about building developer-centric tools and automating workflows. Experienced in deploying scalable applications on AWS, managing CI/CD pipelines, and integrating AI-driven solutions to optimize operational efficiency.

EXPERIENCIA LABORAL

Full-Stack Developer & Platform Enthusiast (Freelance)

Self-Employed | 2022 - Present

- Developed and deployed 3+ production-ready web applications using Vercel and AWS, reducing deployment latency by 50% through automated CI/CD workflows.
- Engineered a custom music management tool that automated file synchronization via WiFi, handling 100% of local library management tasks for users.
- Integrated Gemini AI APIs into production environments, improving user engagement by 30% through personalized recommendation engines.
- Implemented containerized environments using Docker, ensuring consistent development-to-production parity for all internal projects.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Cloud & Infrastructure:

AWS, AWS CDK, Kubernetes, EKS, ECS, Lambda, Docker

CI/CD & DevOps:

GitHub Actions, CircleCI, Git, Automation

Backend & Languages:

JavaScript, TypeScript, Java, SQL, C

Data & AI:

Redshift, Oracle, AI Integration, Gemini API

PROYECTOS RELEVANTES

El Grano de Oro (AI-Powered E-commerce)

Full-stack e-commerce platform with integrated AI virtual assistant, deployed on Vercel with automated CI/CD pipelines.

Music Downloader Pro

Desktop application for automated library management, utilizing local network synchronization and containerized build processes.
